```
Everybody wants you alive
Everybody wants you alive
Everybody wants you alive
But I can't get you out of my head
Everybody wants you alive
Everybody wants you alive
Everybody wants you alive
But I can't get you out of my head
Everyone, everyone,
Everyone, everyone...
Can't get you out of my head
In this life there's hope
In this bed there's hope
In this life there's hope
But I can't get you out of my head
I'm on a road and I feel like I'm flying with you
I'm on a road and I feel like I'm dying with you
I'm on a road and I feel like I'm flying with you
Everyone, everyone,
Everyone, everyone...
Lord, I've tried to get what I could out of this life
Before I die...before I die
