

## Feelings

Lasgo

Don't you dare to play with my feelings  
I can't take it anymore  
You spin the world around, you turn me upside down  
I try to stay far away from you  
Far away from you

Why do you still try  
When you are the one to blame  
Why do I still cry  
It'll never be the same

You are begging me to stay with you  
But you are driving me insane  
Get out of my way  
And I will walk alone  
I don't wanna be part of your game  
I don't wanna be part of your game

Why do you still try  
When you are the one to blame  
Why do I still cry  
It'll never be the same
