

What I heard, What you say  
Doesn't matter anymore  
What you knew, What I knew

Doesn't matter now therefore

Cause words, just hurt  
And your actions are the real pain  
Nothing you say will make it just go away  
So leave before you drive me completely insane  
Let's start all over, so we don't have to know  
Each other's name, each other's story  
It's the only thing you can do for me  
Let's start it new when  
You don't know what I do  
Hurry up and let's be through  
Don't want a thing from you  
Oh, don't even have to say a word, no  
Don't even wanna hear a word

What you hide, I found out  
Plenty of things to say  
What I heard, when you talk  
Silence in every way

Cause words, Just hurt  
And your actions are the real pain  
Nothing you say will make it just go away  
So leave before you drive me completely insane  
Let's start all over, so we don't have to know  
Each other's name, Each other's story  
It's the only thing you can do for me  
Let's start it new when  
You don't know what I do  
Hurry up and let's be through  
Don't want a thing from you  
Oh, don't even have to say a word, no  
Don't even wanna hear a word

I hope you're feeling proud  
My world's under a cloud  
Can't breath inside this crowd  
No words are said aloud  
But you know I don't wanna see you around  
And no I don't wanna see you around

Let's start all over, so we don't have to know  
Each other's name, each other's story  
It's the only thing you can do for me  
Let's start it clear when  
You just get to disappear  
Without you, I've nothing to fear  
I just don't want you here  
Oh, hurry up and let's be through  
Just don't want a thing from you
