

# Always the Only One

Lee Brice

Wish I could say, I could say I've been looking for you my whole life  
But I never believed, I never dreamed, I never knew anything could feel this right  
I got a past I couldn't get past, but it don't haunt me anymore  
Cuz all my demons they ran like hell when my angel walked through my door

You were always the only one  
You were always the only one  
Yeah

If I had a chance, a chance to take it all back, God knows I would  
Hide your heart away, hide you from the pain every second if I could  
Well baby no matter what happens now, you can know I'm always yours  
I ain't ever going nowhere, cuz I ain't never loved, no loved nobody more

You were always the only one  
You were always the only one  
Yeah

You were baby

If you never believe anything else I ever say  
Every second, every moment, every day every day  
If you never believe anything else I ever say  
Every second, every moment, in every way

You were always the only one

You were always the only one  
You were always the only one  
Yeah baby
