

You Want Everything But Me

Lefty Frizzell

You want this, you want that
A new dress, a new hat
You want everything you see
That money would buy, you get it or die
You want everything but me

And baby, someday if you don't change your ways
All alone you will be
'Cause you know that I will be saying goodbye
You want everything but me

When you buy a fur coat
You know And then you go out on a spree
Then I get all the bills for you have all the thrills
You want everything but me

And baby, someday if you don't change your ways
All alone you will be
'Cause you know that I will be saying goodbye
You want everything but me

You want this, you want that
A new dress, a new hat
You want everything you see
That money would buy, you get it or die
You want everything but me

And baby, someday if you don't change your ways
All alone you will be
'Cause you know that I will be saying goodbye
You want everything but me
