Better Than This

Now here's ther deal honey It aint about the car crib or money Life could be oh so gravy If you'd try to understand me baby Now we may get mad at each other but The thing is dont stay mad forever coz You've been with me through stormy weather and Us two together be like bird's of a feather when We fly so high One body, soul and mind You pick me up, when i'm coming down That's why i love having you around

That love you're giving me Is sweeter than honey You're all i'll even need All you want, i'm gonna be Don't care about money It took some time to see It don't get better than this

You could be my girl forever We go together like pen meets paper Want you to bear my soldiers They can care for us when we grow older That might sound crazy baby but/ The love i'm feeling for you is alot I would give you everything I've got I love the way you love me so much We fly, so high One body, soul and mind You pick me up, when i'm coming down That's why i love having you around

And since i met you baby You touched my heart (deeper than you know) Yeah! I wanna tell you how i feel about you/ Listen! I Love You!

[Chorus x2]

Lemar
