

Push Forward

Lena

1. It's always the same a window I can't see through
dont think I'll ever do
it's covered in rain like me as I'm waiting for u
not sure I wanted to

Like horses on a carrousel never win but always keep racing
standing here got time to kill watching them a little oh they dont
know

R: All that I want is always to push forward
but since you've been gone I just wanna push rewind
if yesterday could only be tomorrow
whatever I do I always run behind

2. It's always the same I'm staring at the ceiling
dont know where to begin
all that I see just symbols with no meaning
they could mean anything

Like I sit in a hallway my thoughts are always reflecting
bouncing of the walls as if I was in an empty house and I still do
n't know

R: All that I want is always to push forward...

*: If you could see how my world is tumbling down
or how it hurts when you're not around

R: All that I want is always to push forward
all that I want is always to push forward
but since you've been gone I just wanna push rewind
if yesterday could only be tomorrow
whatever I do I always run behind
