

# Ghosts

Leo Sayer

Ghosts

People that I left behind  
Wandering lonely in the night  
All in my memories

Dreams

Long forgotten flights of time  
Flashbacks flooding through my mind  
Of all the things you said to me  
In the shadows where I walk  
In the silence the wind talks of you  
Just like a ghost haunting the night  
So you wander through my life

Ghosts

People that I don't believe  
Just what they've got to do with me  
Oh, I can't see it, no, no

Ghosts

Long forgotten in time  
Look at these flashbacks flooding through my mind  
Of all the things you've said to me  
In the shadows where I walk  
In the silence the wind talks of you  
Just like a ghost haunting the night  
You know you wander through my life
