

There Isn't Anything

Leo Sayer

You know there isn't anything
Anything, I wouldn't do
You know there isn't anyone
Anyone, loves me like you
Holdin' you close and feelin' your heartbeat inside
It's just like a miracle
And you're makin' me feel so glad I'm alive
And in every way I'm wanna thank you
You know there isn't anything
Anything, I couldn't be
You know there isn't anyone
Anyone, keep you from me
If you're caught in a storm or lost out at sea
Seachin' for a miracle
I would soften the wind
And calm the angry sea
To bring you home to me

(solo)

So if they built up an army
To take you from me
Just like a miracle
I would fly like an eagle
And carry you so far away, in my fantasy
You know there isn't anything
Anything I wouldn't do
Oh no, no, no
You know there isn't anything
Anything I wouldn't do
And I'll be there if you want me baby
It's just like a miracle
Loving you
Just like a miracle
Loving you, loving you
