

# You Didn't Look 'round

Lesley Gore

Oh you were holding her, you were kissing her  
But what could I do  
After telling me you would always be  
Mine forever true

Last night I went to a late night movie show  
At first couldn't see with the lights so low  
Then in the dark I saw a boy I thought I knew  
You didn't look 'round, but I knew it was you

No, you didn't look 'round 'cause you were occupied  
Kissing the girl that sat there by your side  
I was trying not to cry and let my feelings show  
You didn't look 'round, so you wouldn't know

My whole world came tumbling down that night  
When I saw you holding her so tight  
I'm gonna lock my heart to you; at least I'm gonna try  
You didn't look 'round, so you'll never know why

I'm gonna lock my heart to you; at least I'm going to try  
You didn't look 'round, so you'll never know why  
'Cause you didn't look 'round; now you'll never know why  
No, you didn't look 'round
