

Incest As A Legacy

letlive.

Wait for no one, while consistency's down we'll run away from no one

Break my hand my heart is too strong,
And no I can't wait darling see you can't save me
And now mom can't mate, daddy approve this move

Stop running your mouth
Your tongue just can't sprint fast enough (shut your mouth)
If mouth means "fuck" then open wide and sing
Spread your legs girl that cross makes an x and x's aren't whores

We can't make it through

And we walk along these lines since we drew them just in time
These lines intersect as guests on your hands, this is history,
Don't document it will repeat again

Senile bluffing, since consistency's down we'll have our own way with someone
And no I can't wait darling you can't save me
And now mom can't mate, daddy approve this move, so darling will start

Rape was preferred when I could breathe, hold all your questions down,
Then can't to four, then you can breathe

This is for me
Turn in your halos up at the front desk they're only good for the season
We won't judge you cause we know that they're only good for the season
Whoa, I see you, you're running? Me too
We're not running away from no one
