You boy ain't nothing but trouble
The kind I ain't seen in awhile
And I gotta get me out of here
Don't go go and ask crazy questions

Like I maybe don't know what I'm doin'
And I gotta get me out of here
The farthest thought and I simply thought things were right fro
m now on here
Just got here and I'm leavin'

Smile and think of it but don't leave em dead or mix me up in i t

'Cause I'm gone and you can't make me stay
It would appear I've been here lots and lots of times before
(so please don't laugh)

And I wait out in the hallway
Now diggin' back its a big mistake
And one I've made before
And I would like to be out

Out in the hallway You boy ain't nothing but trouble The kind I ain't seen in awhile And I gotta get me out of here

[Repeat: x6]
Get me out of

Get me out of here
