

[Chorus:]

Hold on, Baby, wait and see  
Time will, tell us, should we be  
If so, there's no need to speak  
What we, have comes, naturally

[Verse:]

Pretty girl I see you over there  
All wondering  
What it is that's making you stare at me (Baby)  
I can feel it in the air, there's chemistry  
Can't wait to get a chance to make it complete

[Chorus]

Hey yo Eddie,  
I think I want you to kick that in Spanish for the Mommies

[Verse: in Spanish]

[Chorus]

[Bridge:]

I really need for you to see, it's you and me  
So let it go cause what we have goes naturally  
It's not unusual to feel, so sexually  
So wherever this will go, it's cool with me  
(So naturally)
