

Dance Alone

Lillix

I've been waiting here all night
I see you move between the lights
suddenly captivated
you're the reason why I'm staying
I've been waiting here all night

there's just something about you
that makes me wanna try you on
give me everything you are, are, a a a

hey man it's a quarter to three
and I'm ready to go
are you gonna dance with me?
hey there im waiting on you
come on im ready to move
I shouldn't be dancing alone

I send signals and signs
tick tick
tock
you're running out of time

I am patiently dreaming
will you satisfy my heart?
show me everything you are, are, a a a

hey man its a quarter to three
and im ready to go
are you gonna dance with me?
hey there im waiting on you
come on im ready to move
I shouldn't be dancing alone

Dancing alone

there's just something about you
that makes me wanna try you on
give me everything you are, are, a a a
hey man its a quarter to three
and im ready to go
are you gonna dance with me?
hey there im waiting on you
come on im ready to move
I shouldn't be dancing alone
