

Heal Me

Lior

Why do we turn our backs on each other
Are we not strong enough
We can't heal our wounds
So we'll bleed in the dark

How many times have we broken down
On this tired and familiar road
Cos we never stop
To figure out what's wrong

Heal me
Love is a roof made out of leaves
And I'll bask in your shade
But all shelter is lost
When it rains

Skip in the puddles know where to move
Drops become a lake
Stranded in your garden
I can't find the gate

Heal me

So no more dragging each other through the mud
oh
Been keeping score for much too long
Trying to see which one of us is wrong

We build a city of steel
Looking at a pink sky above
You said you want to catch the sunset
While we're still in love

Well I don't wanna look at these structures
and feel nothing but terrified
I don't ever wanna forget why we tried

Heal me
