

Only You

Lisa Ekdahl

Only you
Can make me feel
The world can disappear
Only you
Make my heart heal
And make it oh so clear
We can talk in circles
Going round in a million ways
And never understand
'Cause our words are whispers
Hidden up in a distant haze
Like diamonds next to sand
I don't even know
What it's all about
But I get all blissed out
And then I know
It's only you
