

Storm & Grace

Lisa Marie Presley

You are the most beautiful man
That I've ever known
Too much to offer
And too much held close to the bone

Just step on the breaks there
You got what it takes

You blow me away
Your storm and your grace
My heart can't seem to take it
Your storm and your grace

You have the most beautiful heart
That I've ever known
It kills me you can't ever show it
And a shell has been grown

But stop moving so fast there
Take your foot off the gas

You blow me away
Your storm and your grace
My heart can't seem to take it
Your storm and your grace

You blow me away
Your storm and your grace
