

C'mon

Lit

We could go on
Wonderin'
If it's gonna turn out like we planned it would
When we were young
And all we knew
Was what the hell it meant to live for the moment

Man one time it goes by so fast

C'mon hey c'mon
Let's stop messin' around
It's all about tonight
It's all about right here and right now
C'mon hey c'mon
We gotta make this one count
It's all about tonight
It's all about right here and right now c'mon

We sit around
And laught about
The way we used to talk when we could dream out loud
When we'd show em all
And prove them wrong
Believing every word in all our favorite songs

What the hell is so different now

C'mon hey c'mon
Let's stop messin' around
It's all about tonight
It's all about right here and right now
C'mon hey c'mon
We gotta make this one count
It's all about tonight
It's all about right here and right now c'mon

Tomorrow's not for sure
So what are we waiting for
