LL Cool J

Ain't nobody as hot as us
East side, west side, north side, south side
Let's ride, uh, the GOAT is now taking over the building
It's time for some of that ol', that good ol'
Yankee up north Dirty south, Yankee music
Uh, it ain't where you from, homey
It's how hot you are, Nicolette, let's -- come on

I be that, girl who straight pop from the N.Y.
Doing my thing, all day, yeah it's her
Nicolette on the track, matter fact, bring it back
Tell me what you think about her
Who you know wit a flow so loco
On a dirty south track from the N.Y. though
I be on it, I be on it, ya'll cats don't really want it
Ya'll don't want it, ya'll just fronting, homeboy, then back up off me
I'm a young fly soldier, thought I told ya, wack cats is gon' be over
I'm a supernova, controller, anything that I get I hold up
I'm a supernova, controller, anything that I get I hold up
Take it back up to the N.Y., show 'em how we do, what we do and why
Keep ballin' in our ride, driving show, I pass 'em by
You see our paper, haters hating but it's still all good
And if you looking for me, you can catch me in my hood
Just doing my thing, got the ring bling, don't get it misunderstood
Nicolette, LL, on the same track, bring it back, tell me what you
think about that
Boys trynna holla, but I ain't having that
You better have game, you better come correct
Ya Girl Nicolette, don't like lame cats
Tell me what you think about that, let's go

Love that you made money, really don't matter
If I see her from a far, this what I yell at her
Hey, over there, over there
Ho, get over here, get over here
In your club with your girls, I'm in here with my mans
Won't your girls meet my boys, we can all be friends
Hey, over there, over there
Ho, get over here, get over here

Got to get it popping, the track is knocking, the Bentley's rocking
Overdose I'm suppose to roast 'em, with every bar I'm dropping
Every time I drop they copping, every single line I lay is locking
You a hater, boy, stop your plotting, it'll be your blood we mopping
Talk about that major flavor, keyed up, cut like a razor
Lyrically I stake and bake ya, you can see I get that paper
Wear jet black like Darth Vader, hopping out on playa haters
It's in my n-n-nature, never been a smoother operator
Switch it up, hit it up, get it up, let it up
Your girl from the back, like giddy up
How come I run, you like my son, I blow the whole god damn city up
Inside that long white milky Bentley like I just picked Diddy up
Think about that while you doubt that, you a fake mac, you can't count that
Hop all off then I bounce back, got 'em looking a wolf pack outback
I'm from where them GOAT GOAT, shout that
Ask Master P, I'm bout that
Everybody know I'm holding, in the party, pocket swollen

Rock and rolling, competition catching coals in they colon

What up ya'll, ya'll know us
Know the party ain't ill til we show up
Once we hit the scene, the chicks go nuts
Sorry if I intervene, ma, but so what
Pour more cups of the drink, cups of the guz stop
Til I'm all drunk in the place, burn the kush to the face
Making the dudes wanna hate, cuz we them new dudes in the state

Feel like a barbecue, shorty keep grilling me up
In the club doing stacks where a ceiling be
Do it well, ask LL dog feeling me
Dudes not feeling me, because we walked in the door
Looking flyer than airplanes, it's not touching the floor

You gonna be scarred, I'mma sweat that weave
Now you can't drive, it's too much speed
Just sit back and enjoy that breeze
In the whip today, but not tomorrow
That's the life of a superstar
Wanna be involved, better be aware
Ticky Diamondz got women everywhere
Do it on the floor, stairs to the chair
Do it on the beat, please, hands to stare
Got you on the beach, you out somewhere
Got your girl screaming that it ain't that fair
Baby come true, got enough bread
Switch to the truck, nothing more said
Kid don't play, just do clean
That's what it is, when I come from Queens
Do my lean, big black truck
Coming through like I'm moving that stuff
I just get checks, just get neck
Girls I'm afraid, running round butt naked
Gotta go, back to the grind
Back to the tracks, back to the rhymes
Burn a little haze, I let my rhyme --
