I'm serving 12 to 15, working the coffee machine I've got a license to fly underneath the radar She's about 50 feet north, 'As Seen On TV' store I know she's gonna tune me in sooner or later With my medication, I will be fine With my medication, I will be fine With my medication, I will be, I will be fine I said, ?I'm trying to write my novel? She said, ?Neither am I? And either way I saw you reading 'No Depression' you're doing nothing, I?ll come over We?ll watch '6 Feet Under' And then we?ll maybe get around to your condition With my medication, I will be fine With my medication, I will be fine With my medication, I will be, I will be fine First she's gonna tire of my fixations Then she's gonna tire of my face I'm gonna need a new affectation I'm gonna need a new one everyday, everyday With my medication I will be fine With my medication, I will be fine With my medication, I will be, I will be fine
