

How Can She Be Everywhere?

Lonestar

We had the rings we had the church
The mints the nuts the punch the works
Coming down the isle her feet started freezing
The next thing I know my bride is leaving
I decided I could use a little space
But everywhere I go I still see her face

2 am Vegas strip, Big and Rich there she is
Disneyworld, Taj Mahal It's a small world after all
I see her in the strangest places
Fenway Park to Talladega
Non stop flight to Tokyo
Guess who's on the exit row
Rockin New Years Eve in Time Square
How can she be everywhere

I close my eyes and try to sleep
She's in my head my bed my dreams
Could be a figment of my imagination
I mean how can she be at every single destination
I've been everywhere on Gods green earth
There ain't no way to get a way from her

2 am Vegas strip, Big and Rich there she is
Disneyworld Taj Mahal, It's a small world after all
I see her in the strangest places
Fenway Park to Talladega
Non stop flight to Tokyo
Guess who's on the exit row
Rockin New Years Eve in Time Square
How can she be everywhere

She just appears right out of thin air
Like Houdini she can be anywhere

2 am Sunset strip Ashton Kutcher there she is
Disneyland, Niagara Falls, It's a small world after all
