Lotta people talkin' 'bout Givin' up and walkin' out These days Made up their minds don't want the hurt They're resigned not to do the work It takes

Well whatever happened to hangin' on And goin' the extra mile Whatever happened to believin'

Let's bring it back
A true love that lasts
Let's take a chance
At spending a lifetime together
In a slow dance
In a deep trance
In a romance
Let's bring it back

Used to be a simple thing
All it took was a simple dream
And love
And when the ride got a little rough
You'd buckle down, stick it out
And rise above

Well, whatever happened to knowin'
That we kept the promise made
Whatever happened to those days
Let's bring it back
A true love that lasts
Let's take a chance
At spending a lifetime together
In a slow dance
In a deep trance
In a romance
Let's bring it back

The kissin', the laughin', the passion Let's bring it back That's what two hearts should have

In a slow dance
In a deep trance
In a romance
Let's bring it back

In a slow dance
All that romance
Let's bring it back
