

The Countdown

Lonestar

Sittin' wide awake in a motel dark
Neon buzzin' in my lonely heart
Wonderin' what you doin', what you wearin' tonight
I wanna be where you are

Oh, I can feel the rhythm of the wheels goin' 'round
I play our song and I turn it up loud
Every turn, every town, every city, every minute
I'm countin' down

Five long days to you I sped
Three thousand miles just to get to the one
Oh, you know you're the one, oh

It's just five more miles, four streets ahead
Three stoplights till I, I get to the one
Oh, you know you're the one, oh

Halfway home, don't know if I can last
Down another cup of coffee, put your picture on my dash
Burnin' both ends and I can't go too fast

Oh, I can feel the rhythm of the wheels goin' 'round
I play our song and I turn it up loud
Every turn, every town, every city, every minute
I'm countin'

Five long days to you I sped
Three thousand miles just to get to the one
Oh, you know you're the one, oh

It's just five more miles, four streets ahead
Three stoplights till I, I get to the one
Oh, you know you're the one, oh

The countdown to you, girl
The countdown to you, oh

Five long days to you I sped
Three thousand miles just to get to the one
Oh, you know you're the one, oh

It's just five more miles, four streets ahead
Three stoplights till I, I get to the one
Oh, you know you're the one, oh

The countdown to you
This is the countdown to you
