## Without You

Fire, smoke, bad joke That's what my life's been turned into Hurt, cry, pray to die That's all that I've got left to do

Without you, every time someone speaks your name I feel my heart go up in flames Without you, nobody's here to see me cry Or wipe the teardrops from my eyes

Without you, I'm the only one that I've got left And I can't live with myself, without you, oh, without you

Guilt, shame, I'm to blame For all the pain I put you through Cold, yeah, stoned, mind blown There's nothin' left for me to lose

Without you, every time someone speaks your name I feel my heart go up in flames Without you, nobody's here to see me cry Or wipe the teardrops from my eyes

Without you, I'm the only one that I've got left And I can't live with myself, without you Without, without, without you, without, without you

Time goes by, still I'm

Without you, every time someone speaks your name I feel my heart go up in flames Without you, nobody's here to see me cry Or wipe the teardrops from my eyes

Without you, I'm the only one that I've got left And I can't live myself, without you

Every time someone speaks your name I feel my heart go up in flames Without you, nobody's here to see me cry Or wipe the teardrops from my eyes

Without you, I'm the only one that I've got left And I can't live with myself, without you, ohh, without you, ohh Without you, ohh, without you
