

# Lovin' What Your Lovin' Does To Me

Loretta Lynn

My heart was at a standstill your touch shook me up  
You made me see what I'd missed now I can't get enough  
I fit so right in your world you set my heart on go  
On the coldest day of winter our love would melt the snow

Our love is hotter than the fire that swept Chicago  
Deeper than the Gulf of Mexico  
Sweeter than the sugar cane down in Louisiana  
Here with you is where I wanna be  
I'm lovin' what your lovin' does to me

Your love struck me like a bolt out of the blue  
The first thing that I knew I was givin' it all to you  
Mhm you make it happen whenever I'm with you  
The longest day of summer couldn't warm me like you do

Our love was stronger than the winds that hit Biloxi  
Taller than the hills of Tennessee  
More movin' than the earthquakes that shake up California  
Here with you is where I wanna be  
I'm lovin' what your lovin' does to me

Our love is hotter than the fire that swept Chicago  
Deeper than the Gulf of Mexico  
Sweeter than the sugar cane down in Louisiana  
Here with you is where I wanna be  
I'm lovin' what your lovin' does to me

Our love is hotter than the fire that swept Chicago  
Deeper than the Gulf of Mexico  
Sweeter than the sugar cane down in Louisiana  
Here with you is where I wanna be  
I'm lovin' what your lovin' does to me
