

# Yawning Blue Messiah

Lou Barlow

Hey to the blue messiah  
Thought of you once again  
Too bad we're only human  
Too bad we can't be friends

I miss you brother but I hate your guts  
Whatever inside you made me regret what was  
I know the world's on fire I know this is the end  
It burns between my fingers

Refuse the medicine  
I miss you brother but I hate your guts  
Whatever inside you  
That made me regret what was  
Made me regret what was  
I let your words infect me  
I let the clock unwind

There'll be no time for healing  
I'm doubting all that's mind  
This is a child's behavior  
We're feeling nothing new  
I didn't need a savior  
What did I ask of you?

I miss you brother but I hate your guts  
Whatever inside you that made me regret what was  
Made me regret what was  
I miss you brother but I hate your guts  
Whatever inside you that made me regret what was
