

## Side (With You)

Love Battery

If I had fun  
I would've stuck around  
With a little bit of sympathy  
We would have had it made  
I've been searchin'  
Yeah, I even cried  
I've been learnin' and getting by

Scares a stranger  
Was our friend  
We made a beginning  
Never made the end  
I've been learnin'  
Yeah, I even cried  
Not burning bridges for some piece of mind

If we were to fight  
Would you know what to say ?  
You had it all  
Did you give it away ?  
I'll side with you  
My friends, they defend me  
When I'm broken, she connect me  
I'll side with you

If I had fun  
I would've stuck around  
With a little bit of sympathy  
We would have had it made  
I've been searchin'  
Yeah, I even cried  
I've been learnin' and getting by

If we were to fight  
Would you know what to say ?  
You had it all  
Did you give it away ?  
I'll side with you  
My friends, they defend me  
When I'm broken, she connect me  
I'll side with you

(I doubt these lyrics are right,  
but it was the best I could do trying  
to understand what he was saying)

I'll side with you!  
I'll side with you!  
My friends, they defend me!  
When I'm broken, she connect me!  
I'll slide with you!
