

Don't Let Go

Loverboy

Does anybody out there
Ever want to stand up
And shout it out
Tired of going nowhere fast
Gotta turn your world about
You know you have to keep on tryin'
Cause sooner or later
You get what you want
Show 'em what you're made of
Ohh, it's just a matter of time

So tell me can you feel it
Can you touch it
If you feel it in the palm of your hand
Don't let go

Ain't it funny how the grass looks greener
On the other side of town
Don't you ever get tired of feelin'
Like the whole world is bringing you down
Now's the time to get things movin'
Follow what you're feelin'
Prove that you can do it
Show what you believe in
Ohh, it's just a matter of time

Tell me, can you feel if
Can you touch it
If you feel it in the palm of your hand
Don't let go

Tell me, can you feel if
Can you touch it
If you feel it in the palm of your hand
Don't let go

I know where you can get it
If anybody wants if
I know if made you feel so right
All you gotta do is stand up and be counted
Show me that you're out there tonight

Can you feel it
Can you touch if
If you feel it in the palm of your hand
Don't let go

Come on
Can you feel it
Can you touch it
If you feel it in the palm of your hand
Don't let go

Tell me, can you feel it
Can you touch it
If you feel it in the palm of your hand
Baby, don't let go

Don't let go
Don't let go
Don't let go

If you feel it in the palm of your hand
