

## Laser Beam

Low

I don't need a laser beam  
I don't need the time  
Leave me in the car tonight  
Rest your drunken mind

I need your grace alone

Lesser things are on your mind  
Don't you think i know?  
Will this poison scar my eyes?  
Mother, close the door

I need your grace alone

I don't need a laser beam  
I don't need a laser beam.
