Soft from your lips to the rise of your stomach Your long filthy fingers keep jamming words down my throat

Nothing to steal you've got nothing to love Nothing to spill because oh we're so innocent

Oh, oh, on the edge of Oh, oh, on the edge of

I could have built you a house on the ocean The ocean repeating, receeding in to the sun

So cut to you, Daniel, now cut to the live feed Cut through our bodies at last bleeding in to one

Oh, oh, on the edge of Oh, oh, oh the edge of Oh, oh, oh [etc]
