In my whole life
My whole life
I've got a dream
I've got a dream

Too many people Hate apartheid Why do you like it? Why do you like it?

Hey you rasta man
Hey European, Indian man
We've got to come together as one
Not forgetting the Japanese

Hey you rasta man
Hey European, Indian man
We've got to come together as one
Not forgetting the Japanese

Hey you rasta man
Hey European, Indian man
We've got to come together as one
Not forgetting the Japanese

The cats and the dogs Have forgiven each other What is wrong with us? What is wrong with us?

All those years Fighting each other But no solution But no solution

Hey you rasta man
Hey European, Indian man
We've got to come together as one
Not forgetting the Japanese

Hey you rasta man
Hey European, Indian man
We've got to come together as one
Not forgetting the Japanese
