

You Know Where To Find Me

Lucky Dube

There is not reason
To cry for you now
I need you
When I was a little boy
But now I'm on my own
I tried to call you many times
Every time I tried in vain

You know where to find me
When you wanna see me/talk to me

Tears could not bring you back
I've told myself I'm an orphan
The only consolation I had was
I'm not the only one

Everywhere you've been
You'd leave women crying after you
I have brothers somewhere
In this world
But I don't them
I have sisters somewhere
In this world
But I don't them
