

# Into the Wild

Lucy Rose

And you stay so far away  
You come back even closer  
Cause we both know how the other feel  
You came running down with your hair looking wild  
Something I haven't seen in a while

How to know how to feel  
About you  
How to know how to be  
Without you

If I could you know me  
If you would believe me  
If I could you know me  
I would let you in

And we both know things will change  
Move on and just let go  
Cause we both know how the story ends  
You came running down with your hair looking wild  
Something I haven't seen in a while

How to know how to feel  
About you  
How to know how to be  
Without you

If I could you know me  
If you would believe me  
If I could you know me  
I would let you in

Into the wild  
Into the wild
