

# Sun And Moon And Stars

Lyle Lovett

The sun, the moon and the stars, they make the wind blow  
It took me twenty years to understand  
But lost to me is how the lives of friends go  
Like autumn leaves in Oklahoma wind

But it made me strong to be on my own  
It never did me no harm to live all alone  
Oh, but now and then in the color of the evening  
Drunken in a barroom with a fan turning, I've come to miss a few

This afternoon was cloudy then the rains came  
Third day of my first day San Miguel  
Seems lately that I'm doubling as storm bait  
I've been followed like a shadow through the dell

But it made me strong to be on my own  
It never did me no harm to live all alone  
Oh, but now and then in the color of the evening  
Drunken in a barroom with a fan turning, I've come to miss a few

Dear friends and relations, see what I have done  
I've gathered all my fingers in one place  
They breathe a breath that's deadly stale since they tooled a song for me  
I guess mechanics never really set the pace

'Cause I'm back and I'm strong, I'm here on my own  
It never did me no harm to live all alone  
Oh, but now and then in the color of the evening  
Drunken in a barroom with a fan turning, I've come to miss a few

The sun, the moon and the stars, they make the wind blow  
It took me twenty years to understand  
But lost to me is how the lives of friends go  
Like autumn leaves in Oklahoma wind

Oh, now and then, it's in the color of the evening  
Drunken in a barroom with a fan turning, I'll come to miss a few
