

## Blistering

Machine Head

You stabbed me in the back over a sliver  
A feeling I have been betrayed  
Both hands broken together  
Clenching fists cause the rage

It comes in spades  
From a life of pain  
I don't care 'cause I don't give a fuck  
It tears a path right through me

A systematic vision of survival  
A struggle I alone engage  
Tension burning inside me  
Blood so sweet cause revenge

It comes in spades  
From a life of pain  
I don't care 'cause I don't give a fuck  
It tears a path right through me

Revenge is mine  
Suffering divine  
Fractures break through bone  
Frustration won't let go

Filled with lead and dumped into the river  
And buried in a shallow grave  
Both hands broken together  
Clenching fists cause the rage
