Machine Head

You stabbed me in the back over a sliver A feeling I have been betrayed Both hands broken together Clenching fists cause the rage

It comes in spades
From a life of pain
I don't care 'cause I don't give a fuck
It tears a path right through me

A systematic vision of survival A struggle I alone engage Tension burning inside me Blood so sweet cause revenge

It comes in spades
From a life of pain
I don't care 'cause I don't give a fuck
It tears a path right through me

Revenge is mine
Suffering divine
Fractures break through bone
Frustration won't let go

Filled with lead and dumped into the river And buried in a shallow grave Both hands broken together Clenching fists cause the rage
