

Down to None

Machine Head

Bow down to no one
Bow down to none

Straight down
Been going
Been sleepwalkin'
In a violent haze

This world
In ruin
The chain shackles
Like a foul disease

This rage
This struggle
It is a feeling
That's devouring

Can't break
Can't fuckin' give in
The pain will lead us
Through the blistering

Cold

Bow down to no one
Bow down to none
