

# Don't Wait Too Long

Madeleine Peyroux

You can cry a million tears  
You can wait a million years  
If you think that time will change your ways  
Don't wait to long

When your morning turns to night  
Who'll be loving you by candlelight  
If you think that time will change your ways  
Don't wait to long

Maybe I got a lot to learn  
Time can slip away  
Sometimes you got to lose it all  
Before you find your way

Take a chance, play your part  
Make romance, it might brake your heart  
But if you think that time will change your ways  
Don't wait to long

It may rain, it may shine  
Love will age like fine red wine  
But if you think that time will change your ways  
Don't wait to long

Maybe you and I got a lot to learn  
Don't waist another day  
Maybe you got to lose it all  
Before you find your way

Take a chance, play your part  
Make romance, it might brake your heart  
But if you think that time will change your ways  
Don't wait to long  
Don't wait  
Hmm... Don't wait
