

Fly the flag  
Put your hand on your heart  
You can be assured  
That you've done your part  
Watch the nation bleed  
From the comfort of your chair  
And then you'll just become  
A lazy bum sitting there  
Friends of America  
Where are you now?  
Get up and do something for  
America, all of us stand up now.  
FACE THE FACTS, we must practice  
What we preach  
Let go of yesterday -  
There is an answer in our reach.  
Someone lead the way, make us  
Do the rest  
We'll join together -  
Sound the call  
Now It's time to  
Show them whose the best.  
FRIENDS OF AMERICA  
The world is a witness to the change  
Of events in the rise of America.  
Who are your leaders? And who are  
Your heroes? In this America.  
Stronger than ever we unite for the  
Common cause of America.  
Friends of America.....
