

## Dissect The Eradicated

### Malevolent Creation

Losing this war, losing your mind  
Inhuman end winding down time

Past that now haunts, history repeats  
Thrown down in shame, this race deletes

Your head at my feet  
Staring up what do you see  
How does it feel, to feel for life  
Now that it leaves you, your soul is tried

If you want to die  
I'll teach you to die  
If you want to [fucking] live  
I'll show you revenge  
Your living joke is my living hell  
Your short grasp on life  
Is my outer shell

The powers that I hold  
To watch lives unfold  
Believe in flaccid rules  
I laugh at you fools

Nightmare unreal  
Embrace the end  
Your future fails  
No life extends  
Embellish the blood  
Embellish the gore  
Bottom fucking line  
There is no more

The powers that I hold  
To watch lives unfold  
Believe in flaccid rules  
I laugh at you fools

Past that now haunts, history repeats  
Thrown down in shame, this race deletes
