

I pulled a loose thread
I gathered you in
Discovered I could
A pivot for your sun

You invited me in
As if it's nothing
We tread on old ground
As if it's nothing now

It's like I hardly see the sky some days
It's like you hardly said a word
It's like I hardly see the sky some days
And I'd do better if I turned my head
Knowing you did

I wouldn't be here
If you could have said no
I wouldn't have come here
If ever I had known

It's like I hardly see the sky some days
It's like you hardly said a word
It's like I hardly see the sky some days
And I'd do better if I turned my head
Knowing you did

Knowing you called
Knowing you held her
Knowing you kissed
Knowing you did all this

It's like I hardly see the sky some days
It's like you hardly said a word
It's like I hardly see the sky some days
And I'd do better if I turned my head
Knowing you did
