Animals

Manowar

Hear the call of the wild in us all It waits for the night to fall I'm getting hot, I'm ready for the night No holdin' back, let's ball I'm gonna give all you can take all night And leave you in the morning feeling right

I'm an animal, there's an animal in me Gonna set it free I'm an animal, there's an animal in me Gonna set it free

I've been looking, you've been watching the side There's somethings you just can't hide Oh, your getting wet, your working up a sweat Your hairs standing up on end Your skin is screaming, glad we met? Tonight's one night you won't forget

I'm an animal, there's an animal in me Gonna set it free I'm an animal, there's an animal in me Gonna set it free
