

# Our Big Mistake

Marc Broussard

It's been so long since I kissed you lips  
I still think about that day.  
Looking back at old photographs Baby is it wrong for me to say  
I don't feel too strong I feel weak I'm still here all alone  
And when I fall asleep

I see you when I close my eyes  
And baby you're right next to me holding me  
I feel you then I see the sun rise  
And wondering where you could be  
Cause everything is gone away  
And now I'm trying so hard to make it  
But I still think that saying goodbye was our big... mistake

The scent of you still on your pillow  
Makes me think I'm holding you  
When the morning comes I wish you were there  
To wake me up the way you do  
So will you pick up the phone so I can hear you speak  
I'm still here all alone every night I fall asleep whoa

We both played a part with all the things we done wrong  
I'm not trying to ignore but a part of me is gone  
And I don't want to feel this way anymore  
I see you when I close my eyes  
And baby you're right next to me  
I feel you then I see the sun rise  
And wondering where you could be  
Cause everything is gone away  
And now I'm trying so hard to make it  
But I still think that saying goodbye was our big... mistake
