

# One Safe Place

Marc Cohn

How many roads you've traveled  
How many dreams you've chased  
Across sand and sky and gravel  
Looking for one safe place  
One safe place

Will you make a smoother landing  
When you break your fall from grace  
Into the arms of understanding  
Looking for one safe place  
One safe place

Oh life is trial by fire  
And loves the sweetest taste  
And I pray it lifts us higher  
To one safe place  
One safe place  
One safe place

(bridge)

How many roads we've traveled  
How many dreams we've chased  
Across sand and sky and gravel  
Looking for one safe place  
One safe place
