

Catch Me If I Fall

Maria Arredondo

Ooh I need someone to hold me
I need someone to take my hand
Who always understands
You will never that someone
Who's always by my side
To shelter me with pride
I will keep searching till I've found
Someone who never lets me down
Someone to catch me if I fall
To see me through it all
Someone to depend upon
I can always call
Someone who makes me strong
Who shows me right from wrong
Someone always standing tall
Someone who will catch me if I fall

I need you to protect me
Instead of begging me to stay
You're pushing em away
Time to end this disillusion
I need to find out for myself
Before I cry for help
Until I find someone who cares
Someone who'll always will be there
Yeah

Someone to catch me if I fall
To see me through it all
Someone to depend upon
I can always call
Someone who makes me strong
Who shows me right from wrong
Someone always standing tall
Someone who will catch me if I fall

I know you think I'm on the run
But I'm just looking for the one

Who'll catch me if I fall
Who'll see me through it all
Someone to depend upon
I can always call
Someone who makes me strong
Who shows me right from wrong
Someone always standing tall
Someone who will catch me if I fall
