O, Mama
Ain't no time to fall to pieces
He has arrived, He has arrived
There by the grace of God go I-
I don't know what they mean
I don't know what they mean
And I say-

O, Father
Now I can't believe you're leaving
Seen thru your eyes, seen thru your eyes
There by the grace of God go I-
I don't know what they mean
I don't know what they mean
And I say-

I hear the rapture's comin'
They say He'll be here soon
Right now there's demons crawling all around my room
They say He lives within me
They say for me He died
And now I hear His footsteps
All most every night

O, Children
This is where they come to take me away-
From here
I don't know what they mean
I don't know what they mean
And I say-
