

Your Love

Marié Digby

I can never find the words to describe what you do to me
If I did it would sound like a hundred symphonies
The sun would descend from the sky
Just to see who stole all his light and glory
You and me can't you see
We could change all of history

Your love, your love, your love, your love, your love
Is all that i need
Your love, your love, your love, your love, your love
So honey stay right here with me
Your touch, your smile, your kiss, your heart is lighting me up
Your love, your love, your love, your love, your love
Is all that i need

I remember walking with you on that april night
I was cold and you knew it so you asked me if I'm alright
Then you reached for my hand
Held it tightly in yours
And neither of us could say a thing
But the look on your face
To me it meant it everything

Your love, your love, your love, your love, your love
Is all that i need
Your love, your love, your love, your love, your love
So honey stay right here with me
Your touch, your smile, your kiss, your heart is lighting me up
Your love, your love, your love, your love, your love
Is all that i need
