

# Come On And See Me

Marvin Gaye

If you need a lover  
Truer than any other  
Come on & see me  
If you need a heart  
That will never tear apart

Come on & see me  
Cause I've got a true love just for you, love  
And it can be yours eternally  
If you want it, you better come & get it  
I say if you want it, better come & get it

If you need a lover  
That'll stick right by you, brother  
Come on & see me  
I'll stand by your side  
I'll dry your weeping eyes

Come on & see me  
Cause I've got a true love just for you, love  
And it can be yours eternally  
If you want it, you better come & get it  
I say if you want it, better come & get it

Ba-a-by (come on & see me now  
Su-yu-gar (come on & see me now  
Ho-yo-ney (come on & see me now  
Cause I've got joy, love, for some boy, love  
And it can be yours eternally

If you want it, better come & get it  
Ba-a-by, baby (come on & see me now  
If you want it, better come & get it  
Su-yu-gar, sugar (come on & see me now  
If you want it, better come & get it  
Ho-yo-ney, honey (come on & see me now
