Come On And See Me

Marvin Gaye

If you need a lover Truer than any other Come on & see me If you need a heart That will never tear apart

Come on & see me Cause I've got a true love just for you, love And it can be yours eternally If you want it, you better come & get it I say if you want it, better come & get it

If you need a lover That'll stick right by you, brother Come on & see me I'll stand by your side I'll dry your weeping eyes

Come on & see me Cause I've got a true love just for you, love And it can be yours eternally If you want it, you better come & get it I say if you want it, better come & get it

Ba-a-by (come on & see me now Su-yu-gar (come on & see me now Ho-yo-ney (come on & see me now Cause I've got joy, love, for some boy, love And it can be yours eternally

If you want it, better come & get it Ba-a-by, baby (come on & see me now If you want it, better come & get it Su-yu-gar, sugar (come on & see me now If you want it, better come & get it Ho-yo-ney, honey (come on & see me now
