

Hello There Angel

Marvin Gaye

Right around the corner there is an angel
And all I hope and pray, I'll make her my girl
So, if I have wings of gold, I'll fly to you, my love
Yes, I would
and all my way to you I'll catch a star from above

Straight away I'll fly to cloud number nine
Said my baby was feeling fine

Hello there, angel, are you feeling fine today?
I happen to be in the neighborhood, thought I'd fly by your way
, to say
Angel love, my darling angel, can you come out to play?
Come on angel, please, I love you

Now right around the corner there is an angel
Yes, she would!

The beauty of your love shines trough and trough
And all, all without you
I know my world will come to an end
But I feel you float beside me
With each day, a new dawn begins

Hello there, angel, are you feeling fine today?
I happen to be in the neighborhood, thought I'd fly by your way
, to say
Angel love, my darling angel, can you come out to play?
Come on angel, please
Hello angel, yes darling, I want to take you home
